Welcome to TenderSystem.

Thanks for the feedback. There are 2 reasons why we have not integrated a paypal payment gateway into TenderSystem, namely:

1. Paypal is not active in SA and we are not allowed to open a user account due to reserve bank legislation.
2. TenderSystem is used by larger corporates who do not use paypal or credit cards as it's just too expensive, especially when you are doing monthly payments running into millions of dollars. Client's usually group payments via bordereaux and schedule payments on a weekly basis.

To develop this will not be too difficult but it is not in our immediate roadmap as there are some other features that are more urgent.

Should you want to develop such a feature please let us know and we will help where possible.
